

Star Controls Cloud SCADA -

- Best of Both Worlds - combine features and capabilities of “Traditional SCADA” with the affordability and simplicity of Cloud SCADA
- Supports different applications - Water, Wastewater, Environmental Monitoring, and Mission Critical such as Storm Water.
- Complies with CISA (www.cisa.gov) requirements for Cyber Security.
- Advanced Local and Site-to-Site Control
- StarCS can be tailored to your specific needs.
- Non-Binding - all components are based on Best of Breed Non-Proprietary Products
- Open Architecture
 - Communications with Existing Smart Devices; PLCs, VFDs, Smarts Sensors
 - Integrate with other Cloud IIoT/SCADA service providers through MQTT protocol
- Demonstrates Unparalleled High Availability
- Support All Networks – Cellular, LMR, LoRa, Mesh, ...
- Offers Video from Remote Sites

High Availability and Cyber Secured

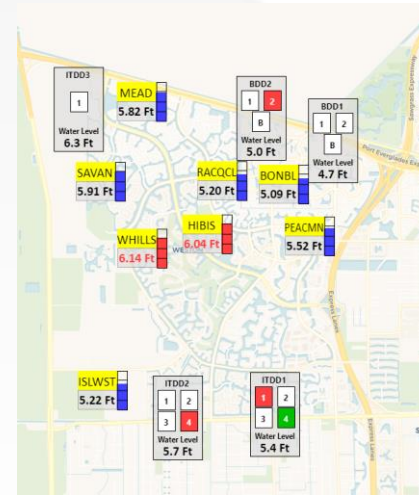

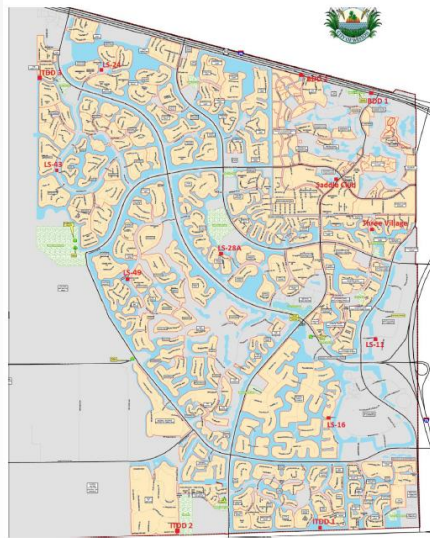

Case Study Lift Station

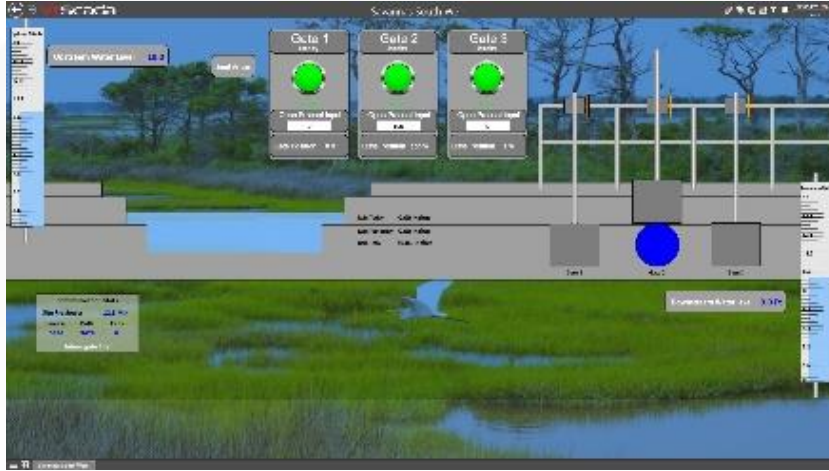

Integrate Existing PLC to StarCS

Case Study – Storm Water Pumping

Case Study – Gates Control for Flood Control

Thank You!
